

Landscape Design Questionnaire

The first step in creating a beautiful and functional landscape, is a landscape design. Since you have arrived at this page, you are already on your way to help in achieving this. To create a landscape that is uniquely yours, requires we get some input from our clients. Therefore, we developed a questionnaire, that helps to summarize your needs, wants, design style, as well as a budget. This is the initial step in the design process and will help us formulate ideas and questions to bring with when we complete the initial consultation.

Please know that all questions are optional and can be left blank if you feel they do not apply to your project, or if you feel uncomfortable answering it.

Uncovering Your Design Style

What design style suits you best?

- Country- rustic/ flowing/ lush/ informal- curved pathways, mixed borders, perennials, colorful
- Formal- symmetrical/ structured- straight pathways, geometric shapes, hedges
- Contemporary- modern/ architectural- straight pathways, repetitive plantings, color contrasts
- Native- natural/ wild/ sustainable- rustic pathways, informal and unkept plantings

What plant varieties would you prefer:

- Mixture of common, unique, and native plants. This option is recommended to encourage creativity in design and landscapes with greater interest and variety.
- Common plant varieties that are excellent performers in landscapes throughout the area.
- Unique plant varieties that evoke interest and helps to create diversity in the landscape.
- Utilizing native plantings when appropriate. They are generally sustainable, and beneficial for the environment. Plants are usually rustic or unkept in appearance and not as showy.
